

SUBJECT: YUGOSLAVIA -- GULF OF KOTOR

25X1

FROM ZELENIKA TO GENOVICH

This is UNEVALUATED Information

Zelenika

25X1

there is an old powder magazine whose present use is

not known.

Kumbur

As is

25X1

known, the section between Kumbur and Genovich is a military zone and, consequently, it is closed to civilians. The following units were moored at the piers of Kumbur:

- 1 minelayer
- 5 double-hull motor landing craft armed with two machineguns located on the wings of the bridge.

25X1

25X1

On the pier facing the seaplane basin

the following units

were moored:

single-hull motor landing craft armed with 3 machineguns, one forward of the bridge and two on the sides of the

bridge

Genovich

- Mine Storage Area -

25X1

On 16 April 40 mines were observed,

all sphere-shaped and painted with red lead.

25X1

- Torpedo Launching Pier -- At the seaward end of the pier

25 YEAR RE-REVIEW

25X1

there is a [torpedo] launching station

25X1

On the roof of the station

there is an antenna and a machinegun

"Torpedni camci" which subsequently sailed to Kotor, was moored at the seaward end of the pier.

- Navy Barracks -- The navy barracks are to the right of the pier

25X1

PUNTA PIAVIZZA

- Naval Shipyard the Montenegro Naval Shipyard is under construction at a rapid pace.

25X1

LE CATENE STRAIT

- San Antonio -- San Antonio is entirely occupied by troops. The latter draw their supplies from the Leppetane supply depot, which is located just south of San Antonio.
- Punta Madonna -- the northeastern coast of the strait, just south of Punta Madonna. a pier which was to have supported the bridge which, according to an abandoned plan, was to have connected the two banks of the strait.

25X1

25X1

KOTOR

Presence of Naval Units

- 6 "torpedni camci" had come from the Genovick [torpedo] launching pier
- 2 single-hull motor landing craft
- 5 landing craft with very low hull, 12-15 meters long, armed with 3 machineguns, one forward and 2 aft.

25X1

25X1

SOUTHERN COAST OF KOTOR STRAIT

25X1

Pristani

- Chain Storage Area -- East of Pristanj there is a storage area for chains, metal buoys, and wooden floats used for obstruction in Boka Kotorska. The two warehouses [] contain marine equipment.
- Pristani [] is occupied by military personnel.
- Work in Progress -- Considerable excavation work is going on west of Pristanj for the construction of an underground liquid fuel storage dump. Metal tanks (a), similar in size to railroad tank cars, are located in galleries dug into rock. []

25X1

25X1

[] Quayage has been built along the section of the coast facing the excavation area [] with the aid of two concrete mixers. []

25X1

Army Warehouses

Between Pristanj and Spilizza []

25X1

[] there are 4 warehouses guarded by three army sentries. The area is enclosed by barbed wire supported by small wooden poles []

25X1

[] these warehouses contain ammunition, for in this area no other warehouse is enclosed and guarded as they are.

Spilizza

- The town [] is occupied by military personnel.
- West of Spilizza there are some houses [] occupied by army officers; []

25X1

25X1

Porto Rose

[redacted] there live some officers

25X1

of the garrison of the fort located on Mount Kaballa.
